FLAT SL PANEL
TECHNICAL DATA SHEET

NUCOR®
BUILDINGS GROUP

Designed for soffit applications, the Flat SL Panel offers flat, 12" panel coverage. It features a lock joint design that permits the placement of concealed fasteners and minimizes moisture intrusion.
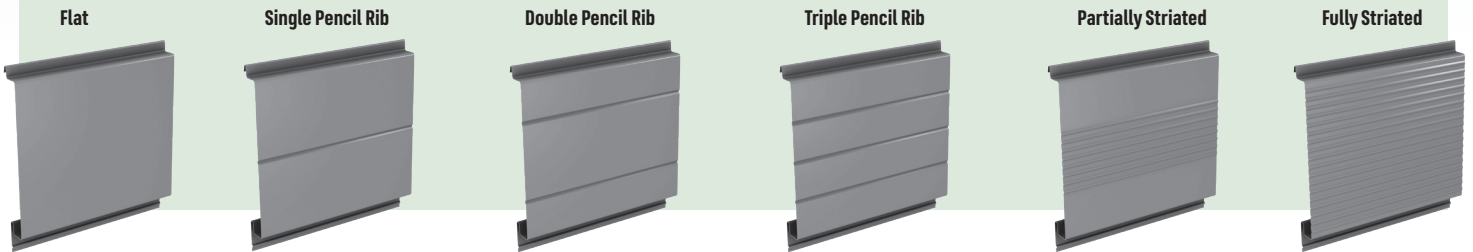

Panel Length
Standard: 1' - 25'

Panel Width
12"

Panel Depth
1 1/2"

Surface Finish
Standard: Smooth

Substrates
Standard: 24 gauge
G-90 Galvanized Steel

PANEL OPTIONS

Flat	Single Pencil Rib	Double Pencil Rib	Triple Pencil Rib	Partially Striated	Fully Striated

## DESIGN FEATURES & BENEFITS

- Excellent for new construction and retrofit projects.
- Concealed fasteners create a crisp, clean aesthetic.

12"

1.5"

TESTING

TEST	CHARACTERISTIC	TEST METHOD	TEST TITLE	RESULTS
Structural	Wind Loads	ASTM E72	Determines structural performance under uniform static air pressure difference	See load-span tables for allowable spans/loads under positive or negative loading.

STANDARD COLORS

Desert Sand (DS)   **Regal White** (RW)   **Slate Gray** (SG)

Recommended orientation as shown above for Flat SL Panel soffit applications.
